Live from the 40th Guadalajara Marathon

Client: Guadalajara Marathon
Industry: Sports & Live Broadcasting
Application: Live Event Coverage

On **November 24th**, the **40th Guadalajara Marathon** took place, bringing together thousands of runners and spectators. To ensure clear and consistent coverage of key moments—from the race commentary to the finish line—**Telycam PTZ cameras** were deployed for live production.

Telycam's Role in the Broadcast

The event utilized **Telycam EXPLORE SE and VISION+ 4KN Series PTZ cameras**, integrated into a professional live streaming setup.

- **Comprehensive Coverage:** PTZ cameras captured key moments of the race, including live commentary and the final sprints.
- **Stable Transmission:** Using the SRT protocol, high-quality footage was reliably transmitted to the **Vizrt TriCaster TC1** for real-time production.
- **Smooth Live Streaming:** The combination of advanced camera technology and professional broadcast equipment ensured stable and high-quality video output.

We appreciate the support of our distributor **GNODE** in facilitating the event's live coverage.
